

Autonomous public health care institution (GAUZ) «Kuzbass Regional Clinical Hospital named after S.V. Belyaeva»

| No. | Nomenclature code | Name of service | Cost of service, rub. |
|------------|--------------------------|---|------------------------------|
| | | Gynecology | |
| 1 | A16.20.042 | Surgical treatment of stress urinary incontinence | 80 636,00 |
| 2 | A16.20.015 | Pelvic floor restoration | 102 387,00 |
| 3 | A16.20.011.001 | Total hysterectomy (hysterectomy) using video endoscopic technologies | 57 573,00 |
| 4 | A16.20.035.001 | Myomectomy (enucleation of myomatous nodes) using video endoscopic technologies | 51 469,00 |
| 5 | A16.20.039.001 | Metroplasty using video endoscopic technologies | 42 878,00 |
| 6 | A16.20.024 | Vaginal reconstruction | 40 384,00 |
| 7 | A16.12.051.002 | Endovascular embolization of vessels with microemboli | 220 000,00 |
| 8 | A16.12.051 | Endovascular embolization of blood vessels | 109 000,00 |
| | | Neurosurgery | |
| 9 | A16.04.029 | Microsurgical removal of IVD hernia with reconstruction of the lateral sections of the radicular recesses, dynamic fixation of the spinal segment, using cosmetic incisions, imported suture material, m/surgery and operating optics | 107 690,00 |
| 10 | A16.04.011 | Posterior spinal decompression and stabilization under X-ray control with application of implants and fixation systems using microsurgery, optics, cosmetic approaches, foreign-made supplies | 144 000,00 |

| | | | |
|----|----------------|---|------------|
| 11 | A16.04.010 | Anterior spinal decompression and stabilization under X-ray control with application of implants and fixation systems using microsurgery, optics, cosmetic approaches, foreign-made supplies | 133 000,00 |
| 12 | A16.04.011 | Decompression and stabilization operations for the consequences of spinal and spinal cord injuries under radiation control using metal implants and various fixation systems, using optimal surgical approaches, cosmetic incisions, and imported consumables | 146 200,00 |
| | | Endocrine surgery | |
| 13 | A16.22.001 | Hemithyroidectomy | 26 015,00 |
| 14 | A16.22.001.002 | Hemithyroidectomy with microsurgical plastic surgery | 35 695,00 |
| 15 | A16.22.002.002 | Thyroidectomy with microsurgical plastic surgery | 46 882,00 |
| 16 | A16.22.007 | Subtotal resection of the thyroid gland (including resection of both lobes of the thyroid gland) | 39 083,00 |
| 17 | A16.22.007.002 | Extremely subtotal resection of the thyroid gland | 42 042,00 |
| 18 | A16.06.006 | Cervical lymphadenectomy (central lymph node dissection) | 35 090,00 |
| 19 | A16.22.003 | Parathyroidectomy | 41 745,00 |
| 20 | A16.22.008 | Removal of parathyroid adenomas | 35 695,00 |
| 21 | A16.22.015 | Subtotal adrenalectomy | 72 600,00 |
| | | Ophthalmology | |
| 22 | A16.26.022 | Correction of blepharochalasis (upper eyelids) | 21 780,00 |
| 23 | A16.26.022 | Correction of blepharochalasis (lower eyelids) | 22 220,00 |
| 24 | A16.26.089 | Vitrectomy | 102 000,00 |
| 25 | A16.26.049 | Keratoplasty | 175 000,00 |

| | | | |
|----|----------------|--|------------|
| 26 | A16.26.093 | Phacoemulsification, phacofragmentation, phacoaspiration using an intraocular lens | 96 980,00 |
| | | Abdominal surgery | |
| 27 | A16.16.064.001 | Laparoscopic gastric bypass | 297 000,00 |
| 28 | A16.16.065 | Biliopancreatic bypass | 110 000,00 |
| 29 | A16.16.065.001 | Laparoscopic biliopancreatic bypass | 385 000,00 |
| 30 | A16.16.017.016 | Laparoscopic gastric resection | 275 000,00 |
| 31 | A16.16.023 | Laparoscopic gastroplasty | 220 000,00 |
| 32 | A16.18.017 | Resection of the rectum and colon using staplers | 105 270,00 |
| 33 | A16.30.028.002 | Excision of the skin of the subcutaneous fatty tissue of the anterior abdominal wall with the transfer of the navel (abdominoplasty) | 108 900,00 |
| 34 | A16.16.064.001 | Laparoscopic miniventricular bypass, level 1 of complexity | 308 000,00 |
| 35 | A16.16.064.001 | Laparoscopic miniventricular bypass, level 2 of complexity | 374 000,00 |
| | | Otorhinolaryngology | |
| 36 | A16.08.013 | Total endoscopic correction of the osteochondral part of the nasal septum with post-traumatic deformity using non-adhesive tampons | 19 360,00 |
| 37 | A16.27.002 | Endoscopic polysinsotomy using non-adhesive tampons | 30 000,00 |
| 38 | A16.08.017 | Endonasal endoscopic opening of the maxillary sinus using non-adhesive swabs | 17 600,00 |
| 39 | A16.27.001 | Endonasal endoscopic opening of the frontal sinus using non-adhesive swabs | 19 800,00 |
| 40 | A16.27.002 | Endonasal endoscopic opening of the anterior cells of the ethmoidal labyrinth using non-adhesive swabs | 19 800,00 |

| | | | |
|----|----------------|---|-----------|
| 41 | A16.27.003 | Endoscopic operations on the group of posterior paranasal sinuses (ethmoidal labyrinth, sphenoid sinus) using non-adhesive tampons | 20 900,00 |
| 42 | A16.08.013 | Total endoscopic correction of the osteochondral part of the nasal septum with post-traumatic deformity using a silicone splint | 23 100,00 |
| 43 | A16.08.035.001 | Removal of nasal tumors using video endoscopic technologies | 15 400,00 |
| 44 | A16.08.047 | Bone grafting of the walls of the paranasal sinuses using grafts and/or implants; endoprotheses, biodegradable and fixing materials | 24 200,00 |
| 45 | A16.08.042.005 | Endoscopic argon plasma coagulation of tracheal tumor | 48 400,00 |
| 46 | A16.08.043 | Endoscopic tracheal stenting with a T-tube | 82 500,00 |
| 47 | B01.028.003 | Daily examination by an otolaryngologist with supervision and care of nursing staff in the hospital department | 3 080,00 |
| 48 | B01.057.005 | Daily examination by a surgeon with supervision and care of nursing and junior medical staff in the hospital department | 3 740,00 |
| 49 | B01.024.004 | Daily examination by a neurosurgeon with supervision and care of nursing staff in the hospital department | 3 300,00 |
| 50 | B01.001.007 | Daily examination by an obstetrician-gynecologist with supervision and care of nursing staff in the hospital department | 3 960,00 |
